SUMMARY

I am a detailed-oriented MERN stack Web Developer with a strong foundation in both frontend and backend technologies. I have experience in building scalable and responsive web applications using React.js, Next.js and Node.js. I'm passionate about delivering high-quality solutions and clean code while constantly seeking opportunities to contribute to Innovative projects and expand my skill set.

EXPERIENCE

React.js Web Developer Intern

Codtech IT Solutions

-Worked on building responsive React.js components.
-Assisted in integrating frontend with REST APIs.
-Learned best practices in state management and routing.
-Collaborated and contributed to real-world projects

PROJECTS

Qonvo

A real-time chatting and image sharing application that allows user to chat in real time and also send images securely and efficiently.

Online Doctor Appointment System

An appointment booking system that allows users to book appointment with respected doctors online and with date, time and availability of doctors. Also, it contains Admin and Doctor panel for tracking the appointments and the payment status.
